

Smart Villages And Smart Cities

The 'smart villages' approach could ensure a brighter future for Europe's rural areas, say Franc Bogovič and Tibor Szanyi.

EU should extend 'smart cities' to 'smart villages'

There is an important distinction between 'Smart Villages' and 'Smart Cities'. The concept of Smart Cities focuses very much on big data and the opportunities for transforming the way in which cities function through inter-related digital technologies.

Smart Villages: A new concept for rural development

The development of smart cities has greatly improved the living and working environment of urban residents, but whether it can enhance the happiness of urban residents is a controversial topic.

Special Issue "Sustainable Smart Cities and Smart Villages ...

It's not just the city that can benefit from smart, connected technologies. A number of applications are being rolled out that could transform the way we perceive the rural and suburban environment.

Smart Cities: What about smart suburbs and the villages of ...

The success of smart cities lies in making our villages smart first, and the first target should be the panchayat level. Osama Manzar is founder & director of Digital Empowerment Foundation and ...
